In 1970 when EVT first opened its doors everyone had to help. Teachers, students, contractors, and janitors all had to help as the new building was finished. When that was done, it was time to start building a reputation.

This time our help was directed to the community. Blood donor days and walk-a-thons were major events. Our reputation was built and this year our help is once again required here. As it was in 1970, we all have to help as the final touches are added to the addition.

"IF ANYONE NEEDS HELP, EASTERN'S ALWAYS THERE"

DAVE STUART

A FAMILY IS...
TOGETHERNESS

"WE DO THINGS TOGETHER, NOT AS INDIVIDUALS."

Jeannette Schady

Togetherness is not only physically being with people, but the knowledge that they will be there if you need them. We have seen several examples of this in the past few years.

We've had benefit nights for those who have fallen on hard times and we've provided moral support for those who have experienced tragedies. We handle everything beautifully together.

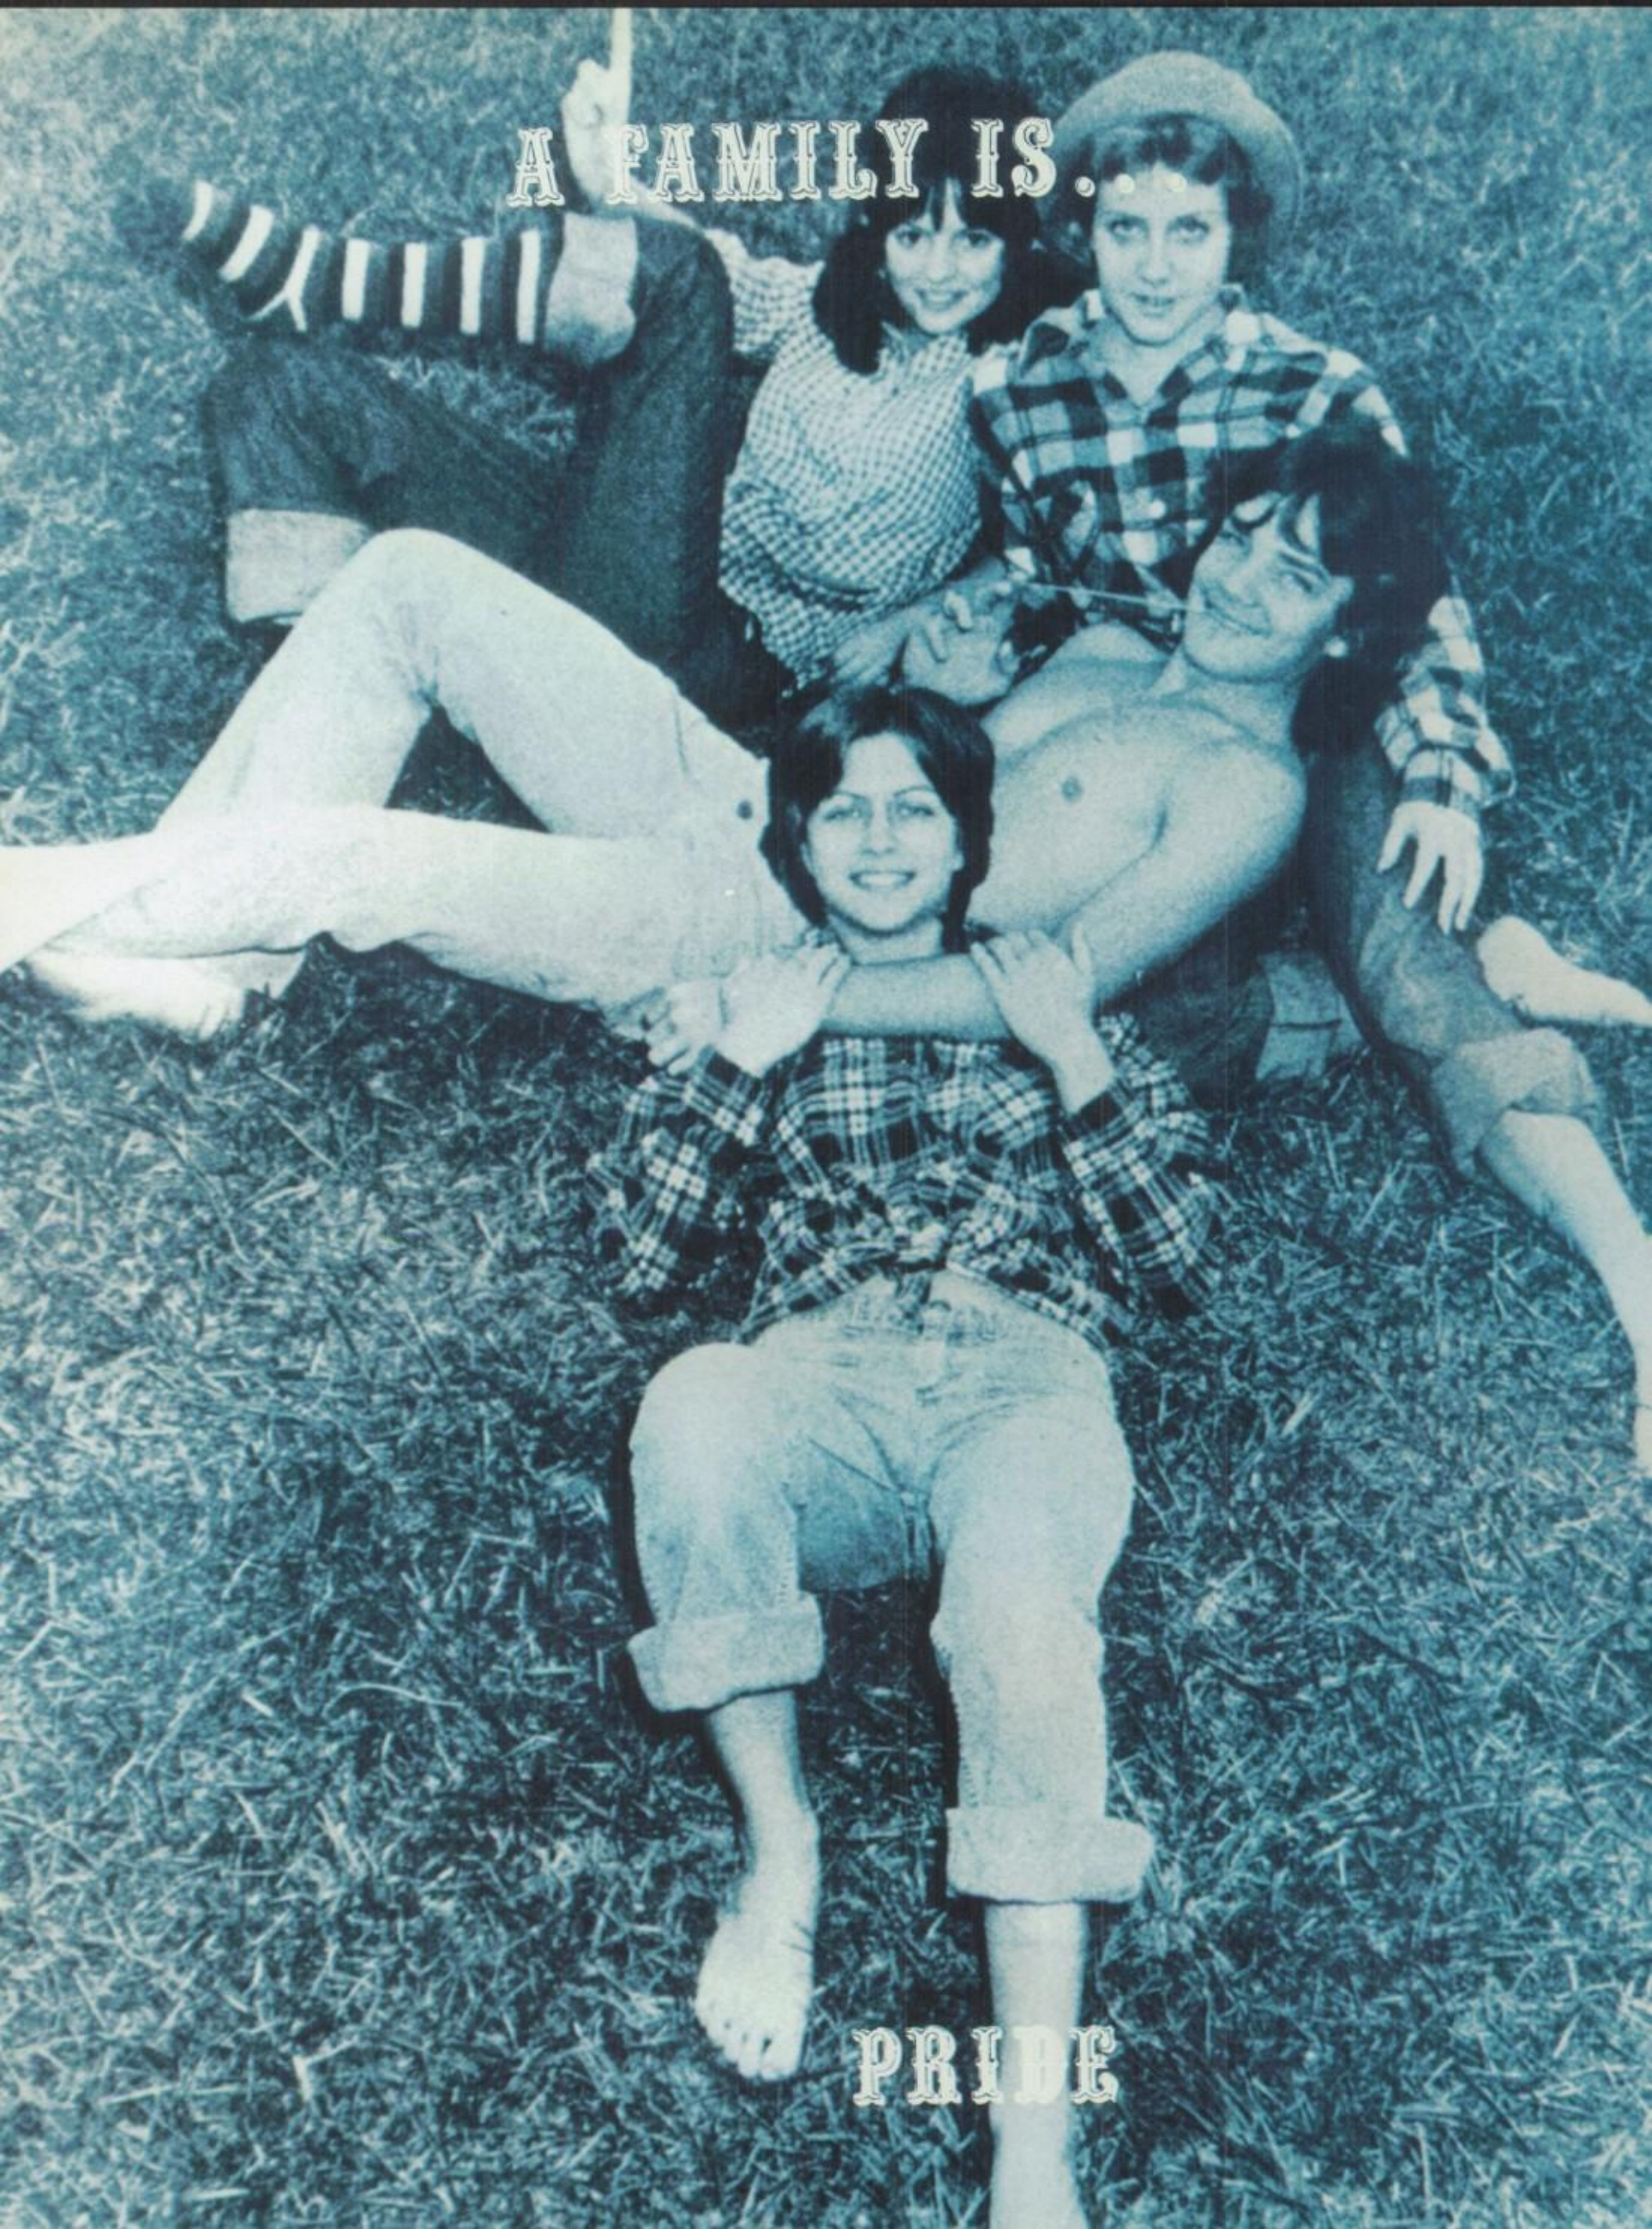
A FAMILY IS...
SHARING

Sharing means many things to a family. It can mean sharing a sandwich, a happy moment, or a sad time. Basically it means sharing life.

We all share in the happiness of a sports victory or a successful blood donor drive. We share in the fun of a pep assembly or the grief of a tragedy. Mostly we share 3 very important years.

"EVERYONE SHARES; EVERYONE CARES. EVERYONE LOVES MR. PLUEMER."

SHELLEY BURKHARDT



A FAMILY IS...
PRIDE

"MR. PLUEMER TAKES PRIDE IN HIS STUDENTS AND HE TREATS US LIKE FAMILY."

Clint Dick

Pride has always been one of Eastern's biggest assets. We've always had pride in ourselves, whether we are helping our family, helping our community, or competing in a sporting event.

Unlike many schools, we are proud of our principal, and in turn, he is proud of us. We always try to do our best so that everyone else will be proud of us too.

A FAMILY IS...

HAPPINESS

Three years are spent in shops, classes, clubs, and organizations in an attempt to earn the Eastern diploma. Later, graduates return to experience athletic events, class dances, christmas parties, pep rallies—and to renew teacher friendships. Why is this so? — Eastern is a happy place.

It has become a tradition for EVT students to be happy, helping, caring, sharing, and proud. The classes of '72, '73, and '74 should be thanked for the wonderful traditions they started, and we hope future classes, continue on in this proud manner.

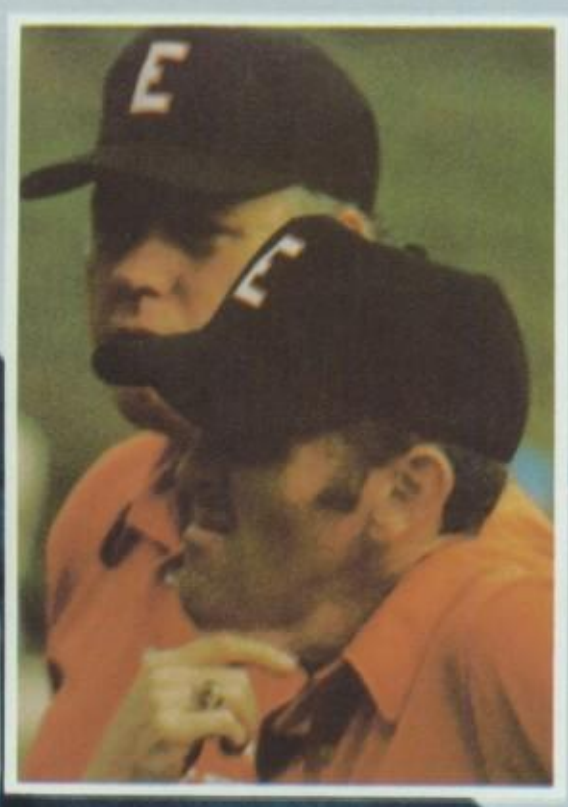
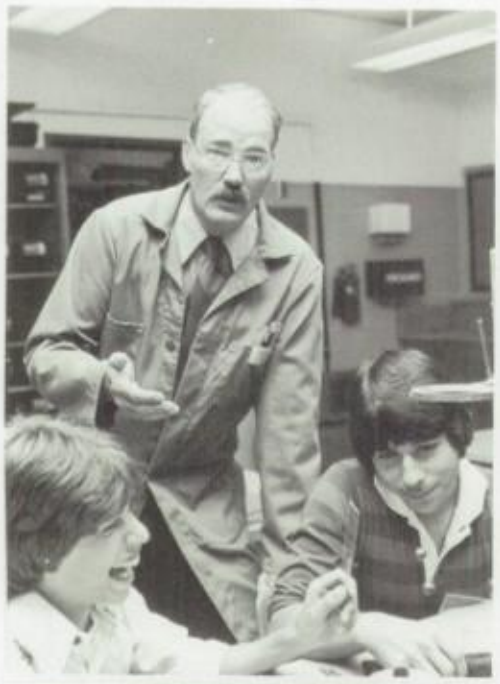
FACULTY

33 MEMBERS OF THE FACULTY HAVE BEEN HERE 10 YEARS.



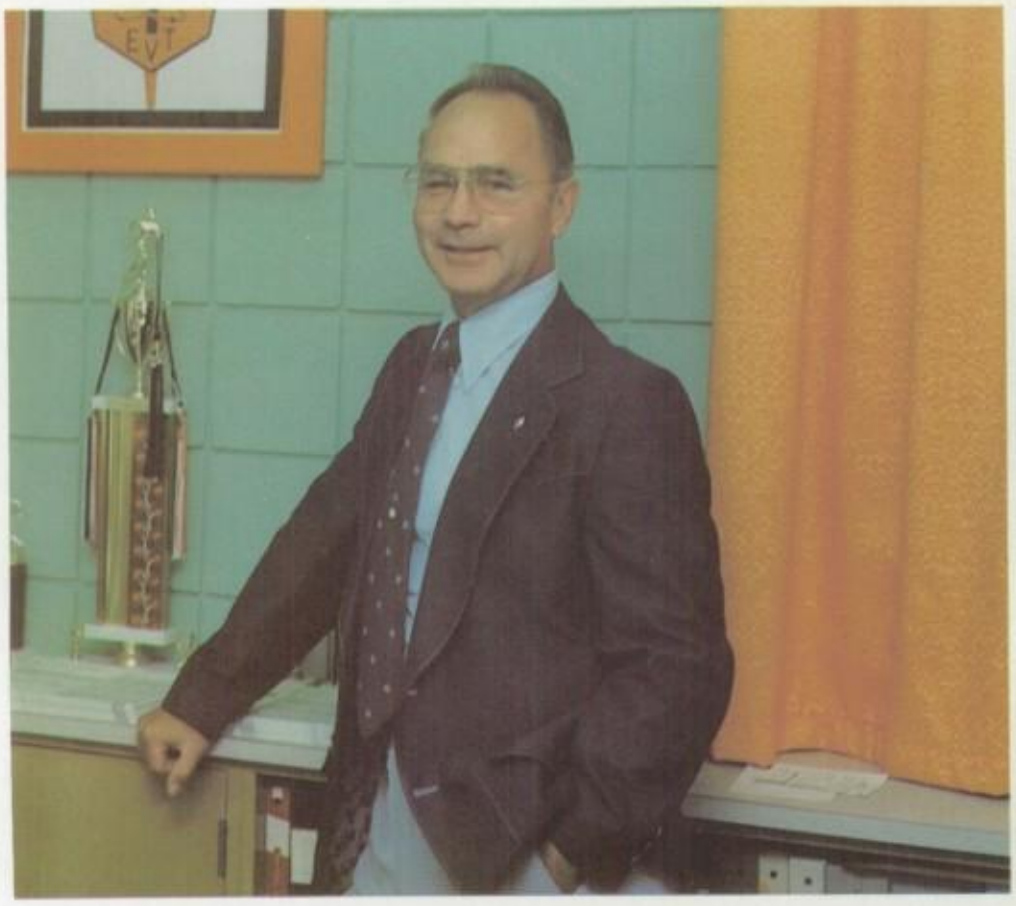
TIMES WE SPENT TOGETHER



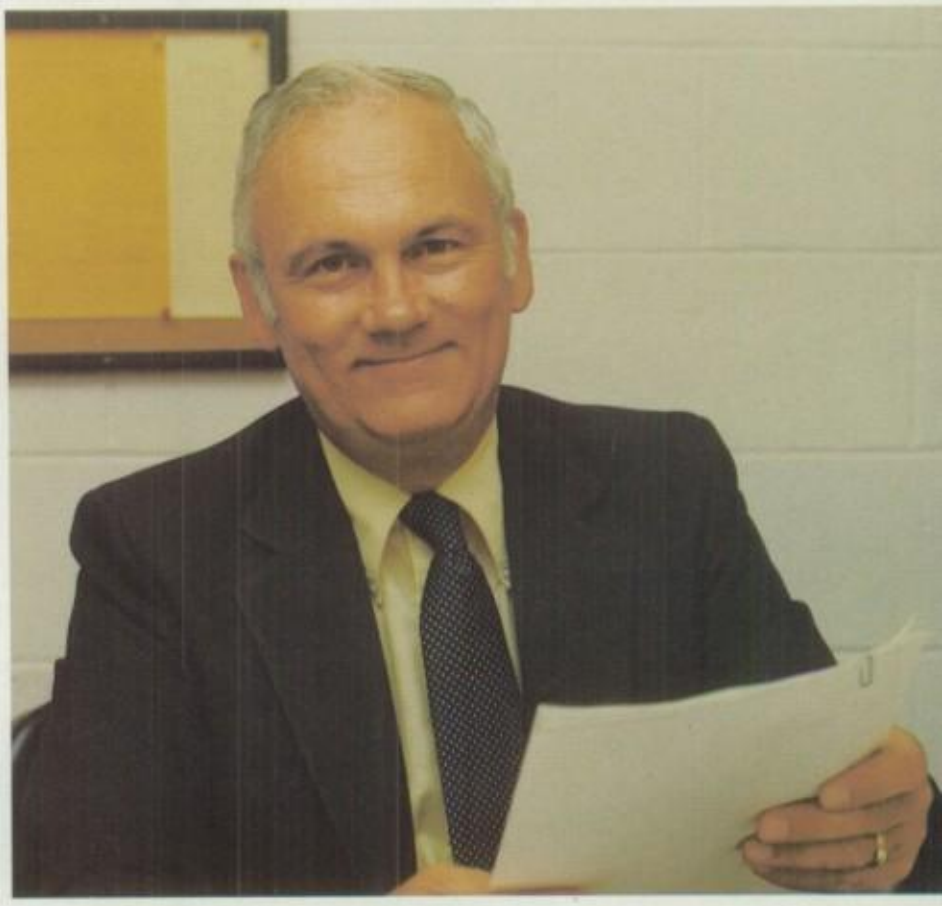
The staff here at E.V.T. is smaller than many faculties at other schools. Years of teaching experience range from two to thirty-one; some teaching since the opening of the school ten years ago, and a few starting this year. They have many activities that they work on together: parties, projects, picnics and other get-togethers. Like a family, they differ from time to time but always come together to aid others. They treat students as individuals, and they, in turn, earn respect. They're always welcoming newcomers to a warm and relaxing atmosphere and together they all work toward the same goal: to be #1.

THE LEADERS OF OUR FAMILY

Ray Pluemer, our principal since the beginning, has worked with his "areas of concern" quite well in the past ten years. When his back permits he enjoys bowling and attending faculty functions. He is really a "father figure" for many of his students because as he puts it, "Trust and caring . . . are important."



Our other assistant principal **Andrew Baummer** tops our entire staff in longevity with 31 years in education. His announcement closing in the morning, "Have a good day," is a reflection of his own philosophy that includes "caring about each other." He, too, spends some of his leisure time officiating sports.



James Pallace, one of our assistant principals, has been in education for twenty-one years with ten of those at EVT. His major interests are officiating sports and reading. He has enjoyed his years here and looks forward to the future expansion and in his words, " . . . the same outstanding sense of belonging that has made us outstanding."

AUTO MECHANICS

One of the most popular primes is **Auto Mechanics.** Many men realize a life-long ambition as they spend their afternoons delving through technical reports, diagnosing problems, working on autos that have been brought in by members of the community, and entering local and national competitions.

BODY & FENDER

In **Body & Fender** our young men gain valuable practice in cost estimating, rustwork, paint work, and patching. In this trade area also, members of the community bring in their cars so that we can gain practice in restoring them.

BUSINESS OCCUPATIONS

"Another outside job?" This cry is often heard in **Business Occupations** where our students are hard at work learning forms and machines. The emphasis here is on human relations as well as career preparation. Many sections of this yearbook, for example, were prepared by the seniors in this prime.

CARPENTRY

After two years of framing basics and tool and machine work, our **Carpentry** seniors actually frame up and enclose a small house as part of their performance testing. Outside work includes the manufacturing of picnic benches and stairs.

COSMETOLOGY

Many young women consider **Cosmetology** one of the most exciting and involved primes at EVT. For starters, the department is set up in the fashion of a working beauty salon in which the ladies come to the aid of patrons and occasionally try out a new fad on each other. During the course of the year, there are trips to hospitals for more work and competitions at the Eastwind and other exciting places. In addition, there is practical experience in the business side of running a place of "her" own. Although there is always a feeling of competition running through this prime, there is also a strong feeling of unity when it is needed.

DRAFTING

The business of **Drafting** is to work on and use industrial layouts in order to prepare for college or work. Students not only get to practice their sketches here; they often choose to spend hours at home completing them.

INDUSTRIAL ELECTRICITY

Students involved in **Industrial Electricity** learn the basics of wiring, installation, and many other aspects of industrial, residential, and commercial work. The seniors pictured here will cap off the year by completely wiring a house.

Steve Goodman Drafting, JETS, Chorus, success, "I'll drink to that."

COBOL

COBOL is defined as Common Business Oriented Language. This demanding prime concentrates on establishing a standard language for data applications in order to operate computers more efficiently. Students are often involved in refined work that takes quite some time to complete. Sound difficult? It is.

RPG

"Quick and dirty." That is what one instructor jokingly calls **RPG** or the prime of report program generator. This source language was set up to give the programmer an easier and more efficient way of generating programs. During our sophomore year, our students make their decisions as to whether they will go RPG or COBOL.

MAINTENANCE MECHANIC

A **Maintenance Mechanic** is truly a jack-of-all-trades. He is trained in plumbing, welding, heating, and air-conditioning. Therefore, he often finds he is responsible for building equipment for the new building or completing a project for someone in the community.

NURSING

Nursing is another unique prime. Our students spend much time at local hospitals; they enjoy the special Capping Ceremony, and they are part of a cooperative program with another hospital. After graduation, additional courses during the summer, and the State Boards, they are licensed practical nurses.

THERE IS NO DEATH

In one sense there is no death. The life of a soul on earth lasts beyond his departure. You will always feel that life touching yours, that voice speaking to you, that spirit looking out of other eyes, talking to you in the familiar things he touched, worked with, loved as familiar friends. He lives on in your life and in the lives of all others that knew him.

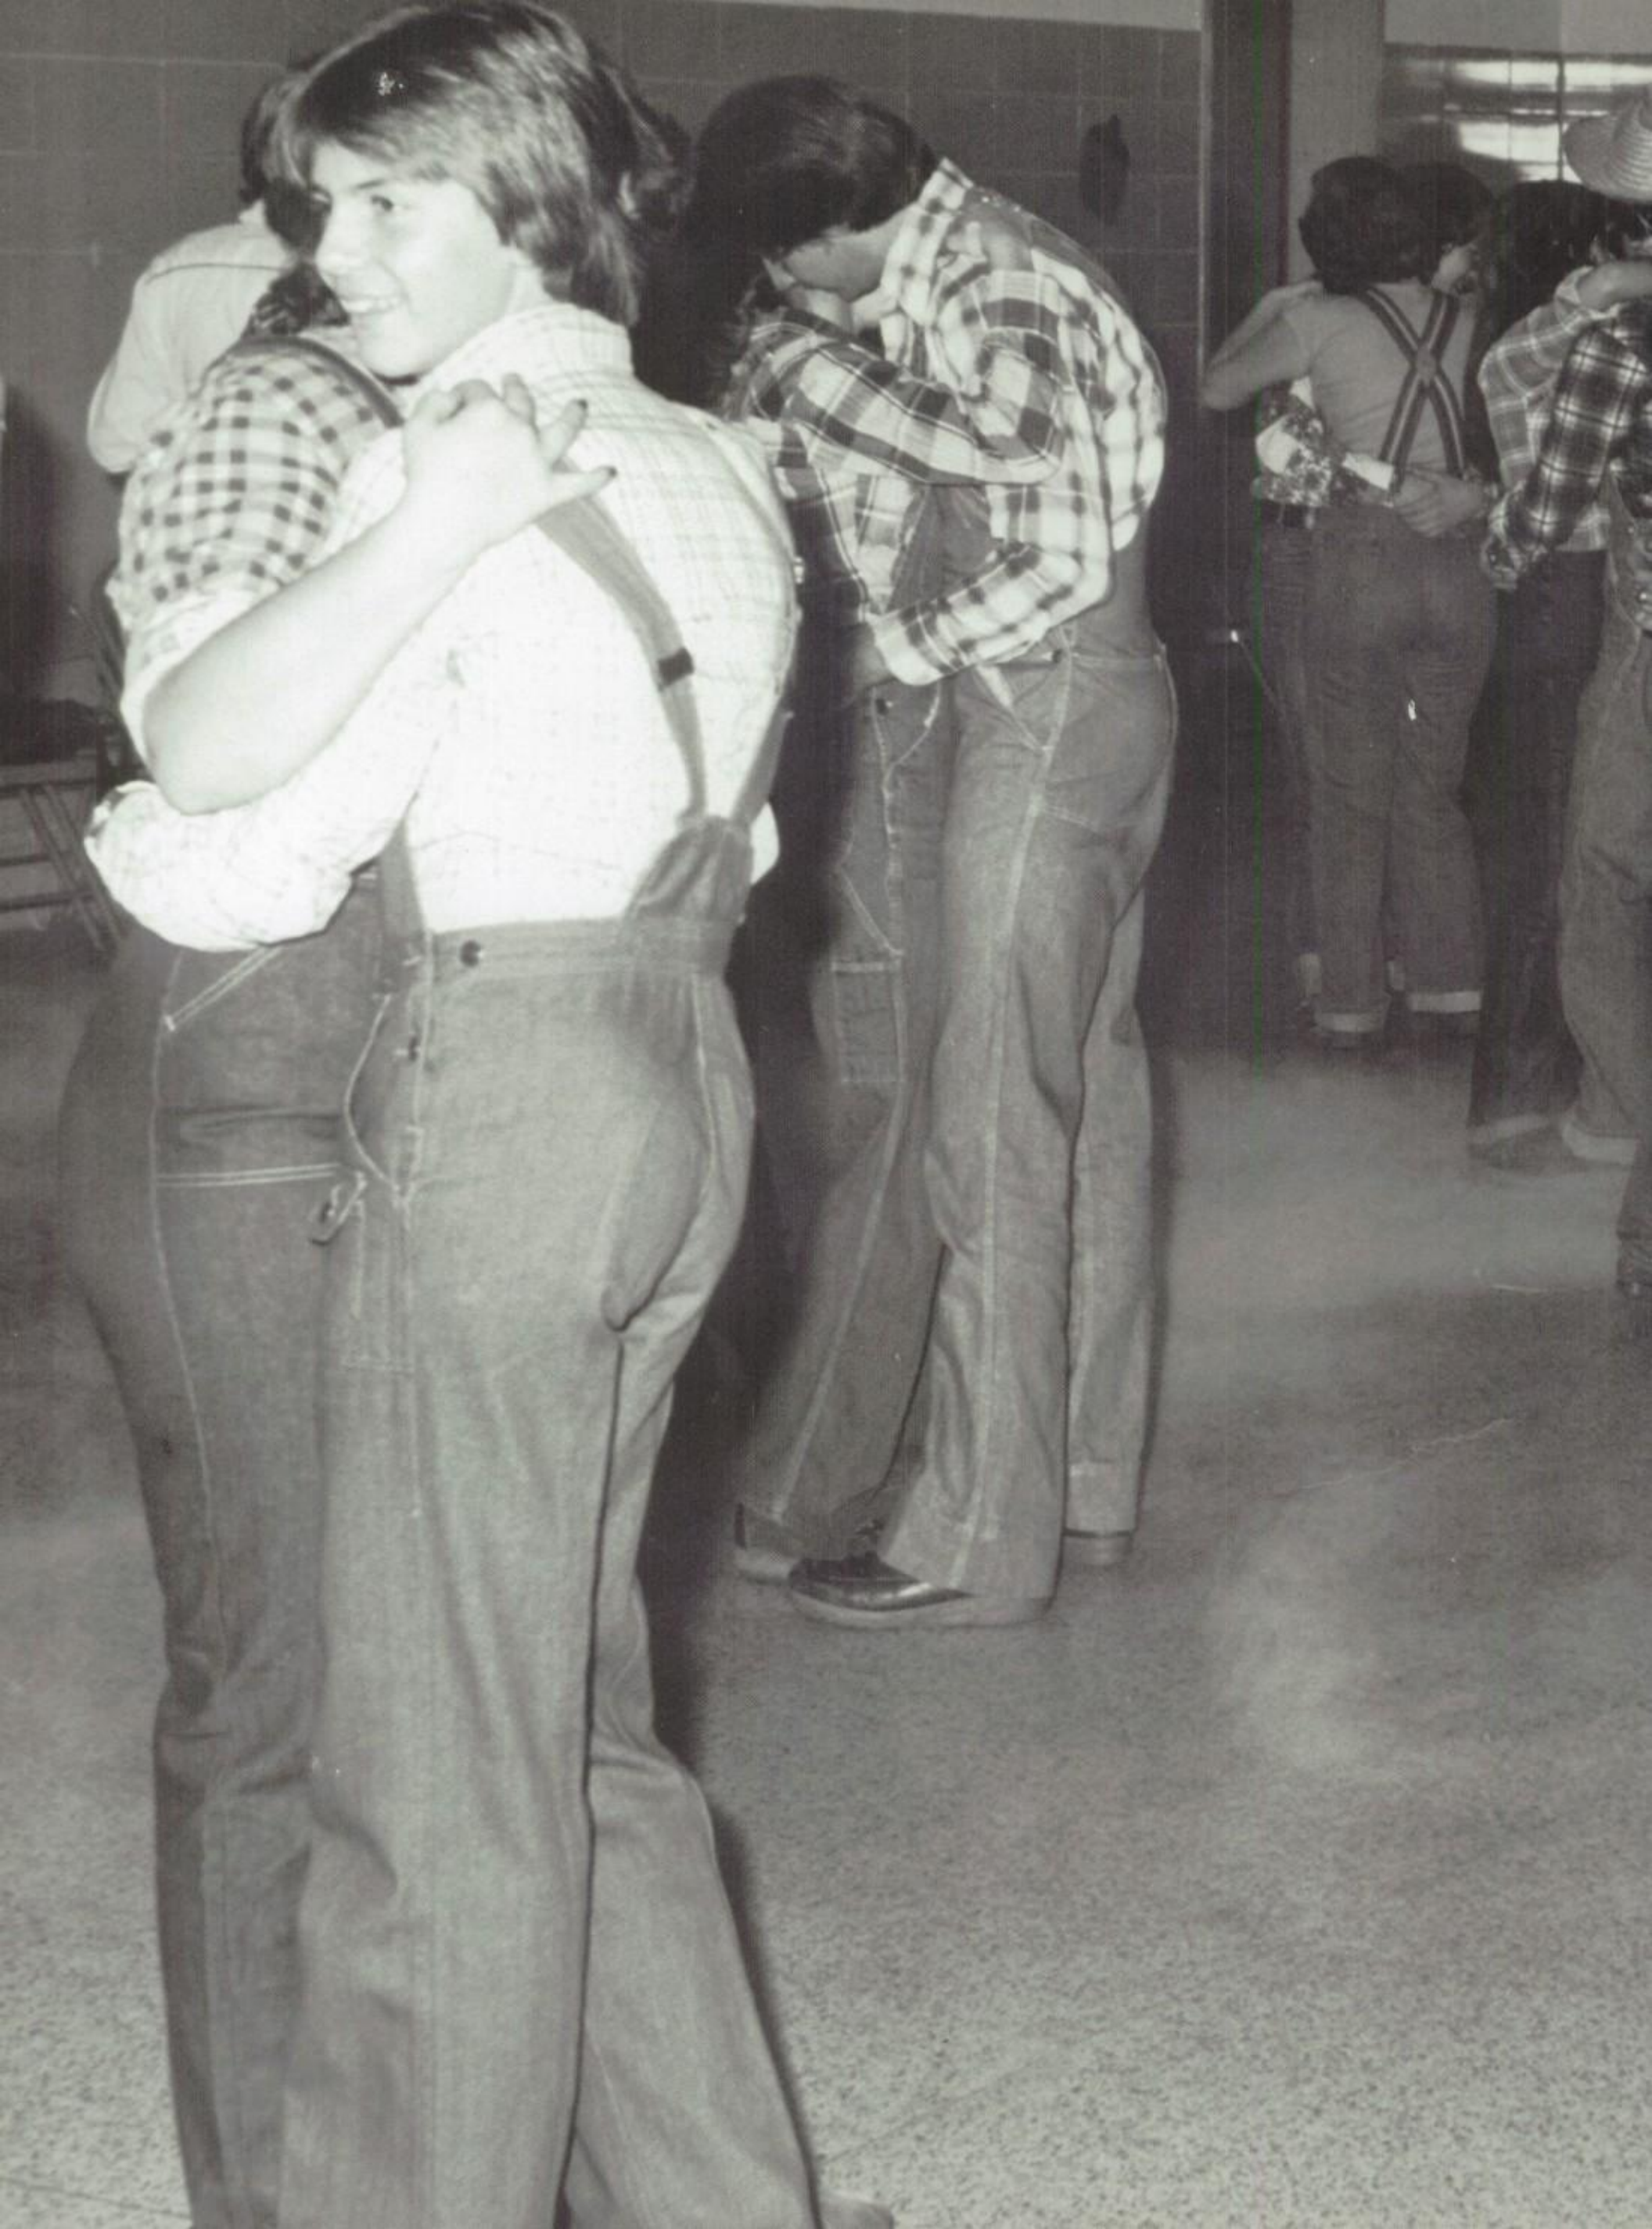
FRIENDS

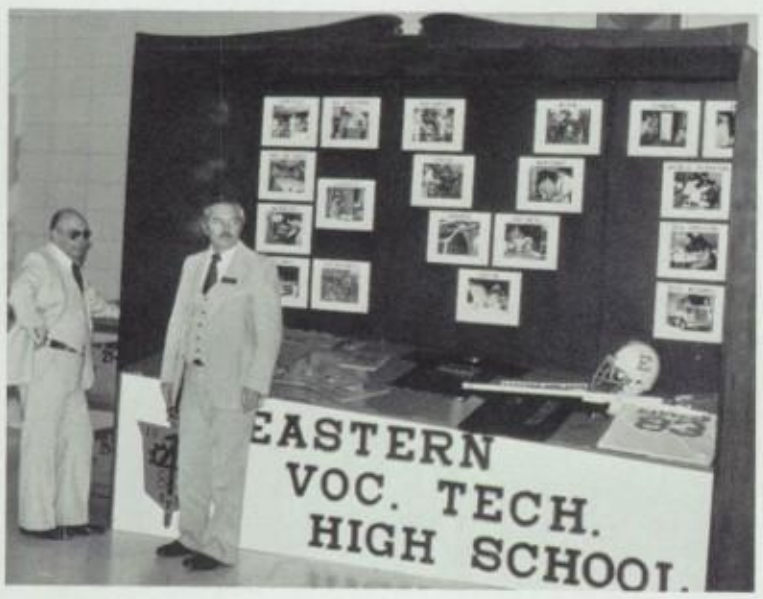
Death is not the enemy of life, but its friend, for it is the knowledge that our years are limited which makes them so precious. It is the truth that time is but lent to us which makes us, at our best, look upon our years as a trust handed into our temporary keeping.

JOSHUA LOTH LIEBMAN



ACTIVITIES

This year marks the tenth year of the spaghetti dinner.



A STROLL THRU THE PAST

As you glance at these pictures of the seventies, you will see the same traditions: dances, spirit week, athletics, rings, and concerned faculty. You may also see a brother, cousin, or neighbor, for many times we come to our school because it has been highly recommended by someone whose judgment we value.

SPORTS

THE PROUDEST MOMENT IN EVT SPORTS WAS THE 1973 FOOTBALL TEAM.

V. FOOTBALL

This year's biggest game was against North Carroll, a game which the team played extremely well, but lost 16 - 8. The Mavericks most satisfying win was coming from behind 13 points in the 4th quarter to defeat Hereford 14 - 13.

V. CHEERLEADERS

Each year the cheerleaders face new surprises, new problems, and new challenges. This year has been no exception. Living through these challenges has brought some joy, some pain.

In late summer during two and a half weeks of daily rehearsal, they faced the unknown with confidence. During those warm summer days, old cheers and stomps were perfected; new ones were developed; uniforms and jackets ordered; fund raisers scheduled.

With fall sports came weather that often cancelled car washes and forced us to look ahead.

By the end of the second quarter, the long-awaited jackets had made their appearance and the first morning pep assembly was history.

After our busy winter season, we now look back with pride and hope that our enthusiasm helped teams forget defeat and may even have contributed in some ways to victories.

Team: (L to R) D. Hennlein, T. Wolfe, Captain: K. Diem, D. Kaminski, Y. Thompson, T. Bramble, V. Crenshaw, G. Ferraro, S. Hayes, Mascot: D. Brown.

Even though our varsity volleyball squad finished with a record of three wins and six losses, Coach Nancy Todd saw some bright spots in the program. "After sixteen years of coaching basketball, this will be one of the teams that will be my most memorable. They will be memorable because they refused to quit. Many times we were out of games as early as half-time, but they went out and continued to do their best. What more can any coach ask of student-athletes? The crowds were small; the publicity non-existent; the victories few.

I will remember the highlights that we shared this season: Huppert's determined rebounding, Comb's unselfishness, Joe Pisciotta's dedication, McKissack's loyalty, Propst's spurts of energy, Zach's improving play, Brudzinski's deft shooting, Belcher's all-around play and saavy, and Heimbach's great all-around performance against Mt. Carmel."

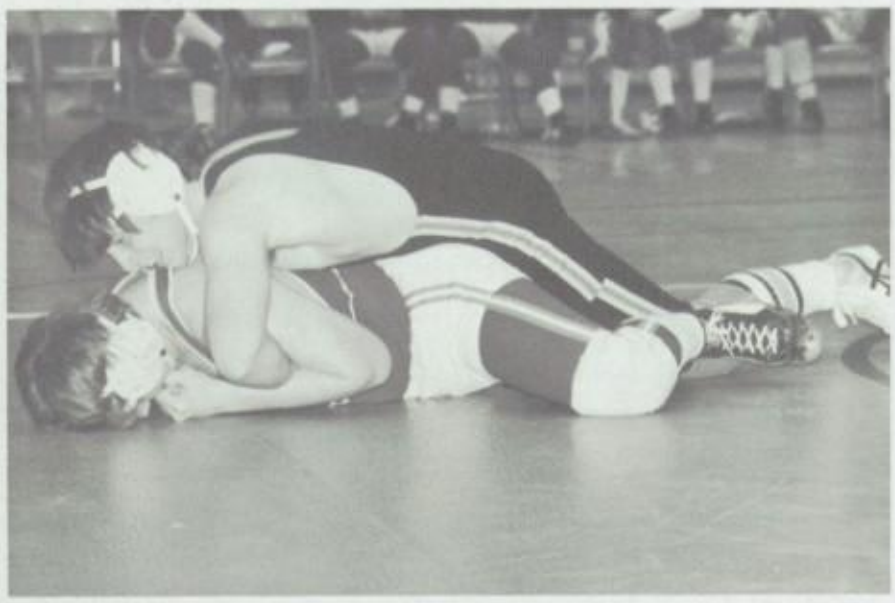
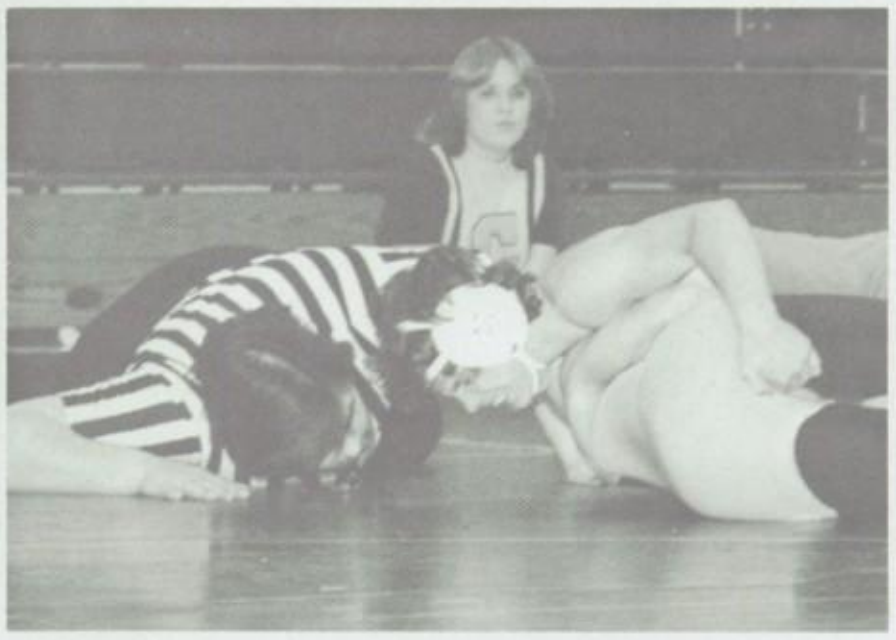
BALTIMORE COUNTY CHAMPS





"IF YOU CAN MEET WITH TRIUMPH

The rest of the quotation above from Kipling's poem "If" is ". . . and treat those two imposters just the same." The athlete at EVT is often lost in the crowd like the young scholar-athlete in the race in the background, but the athlete here learns to treat disaster or an athletic loss as just what it is: an imposter. These pages are dedicated to the athlete here who plays for pleasure and comeraderie. His or her triumphs will come later and will be placed in the proper prospective in life. Winning or losing in athletics is ephemeral or short-lived; winning or losing in life is a long-term thing.

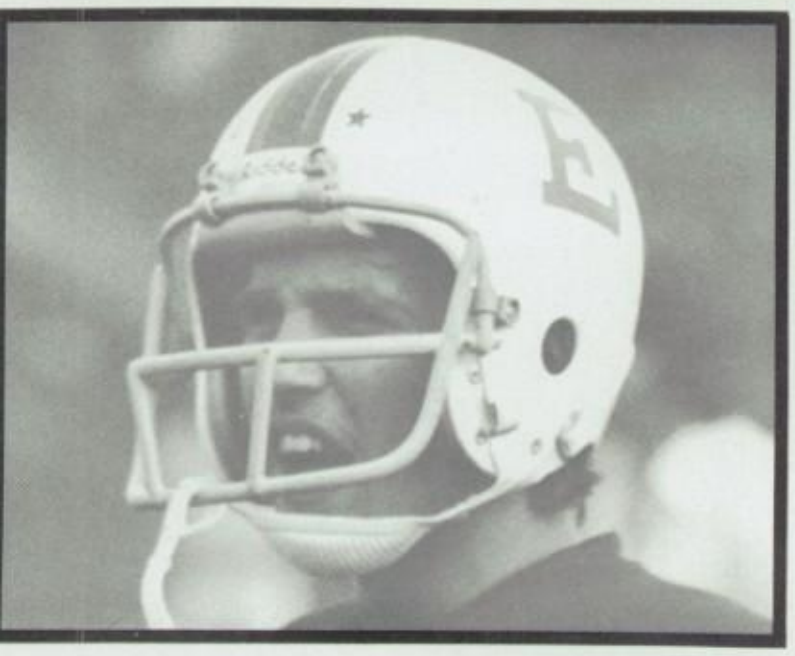
CLOSING



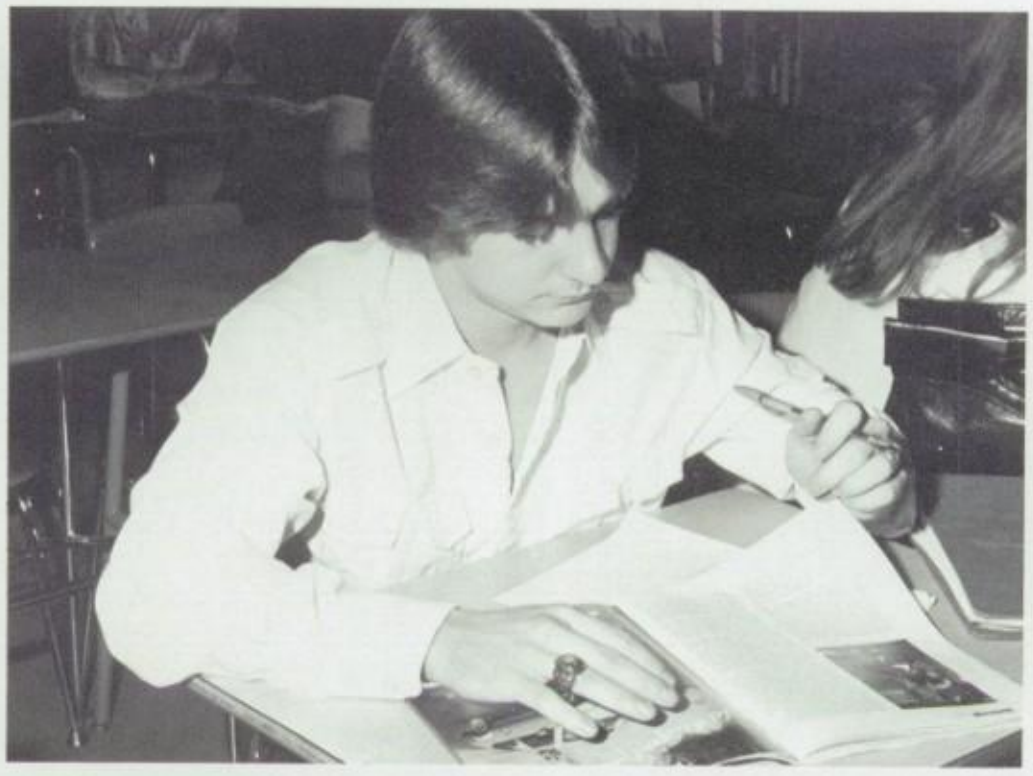
The final section captures glimpses of our family as we really are.

"Perhaps the most valuable result of all education is the ability to make yourself do the thing you have to do, when it ought to be done, whether you like it or not. This is the first lesson to be learned."

Thomas Henry Huxley

HIGHLIGHTING . . .

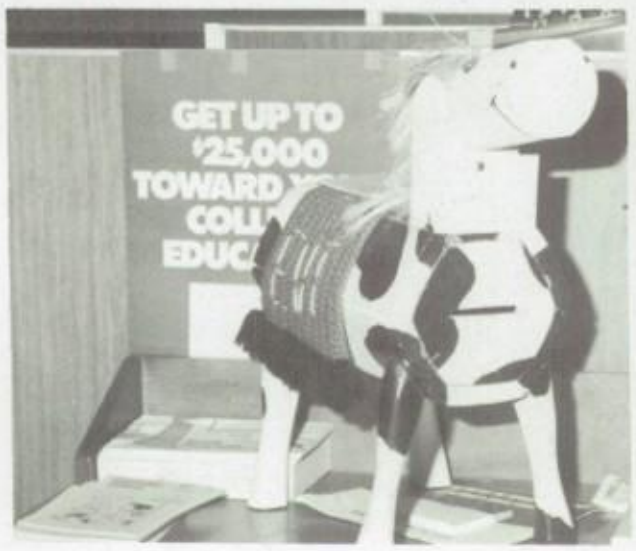
THE THINGS WE LEARN



Whether we are in the classroom, on the athletic field, or on the job, the basic reason for being there is to learn. Students spend the majority of their time in their trade area learning something which interests them. They not only learn visual skills but learn competition, enthusiasm, and ambition. Enjoying the process of education is what makes Eastern different.

"Life is no brief candle to me. It is a sort of splendid torch which I have got hold of for the moment, and I want to make it burn as brightly as possible before handing it on to future generations."

George Bernard Shaw



THE TIMES WE SHARE

We shared many good times together, times we will always treasure and remember. We'll remember not only the happy, but also the sad. The times we spent with teachers and friends helping, caring and sharing. We will remember leaving school in the afternoon, helping clean up after an event, listening to our coach's advice and having fun.

Long ago . . . it must be . . .
I have a photograph.
Preserve your memories;
They're all that's left you.

Simon And Garfunkel

This year many outstanding events have occurred both in school and in the world in some way affecting our lives.

At Eastern, we welcomed the new parking lot, a snow king and queen, and follies.

Pride in the Orioles came alive again. At the same time, pride in America was showing as the Ayatollah and his militants held 50 Americans hostage in Iran.

The Iranian crisis and the Soviet invasion of Afghanistan made the drafting of women a major issue. It forced the U.S. to withdraw from the Summer Olympics.

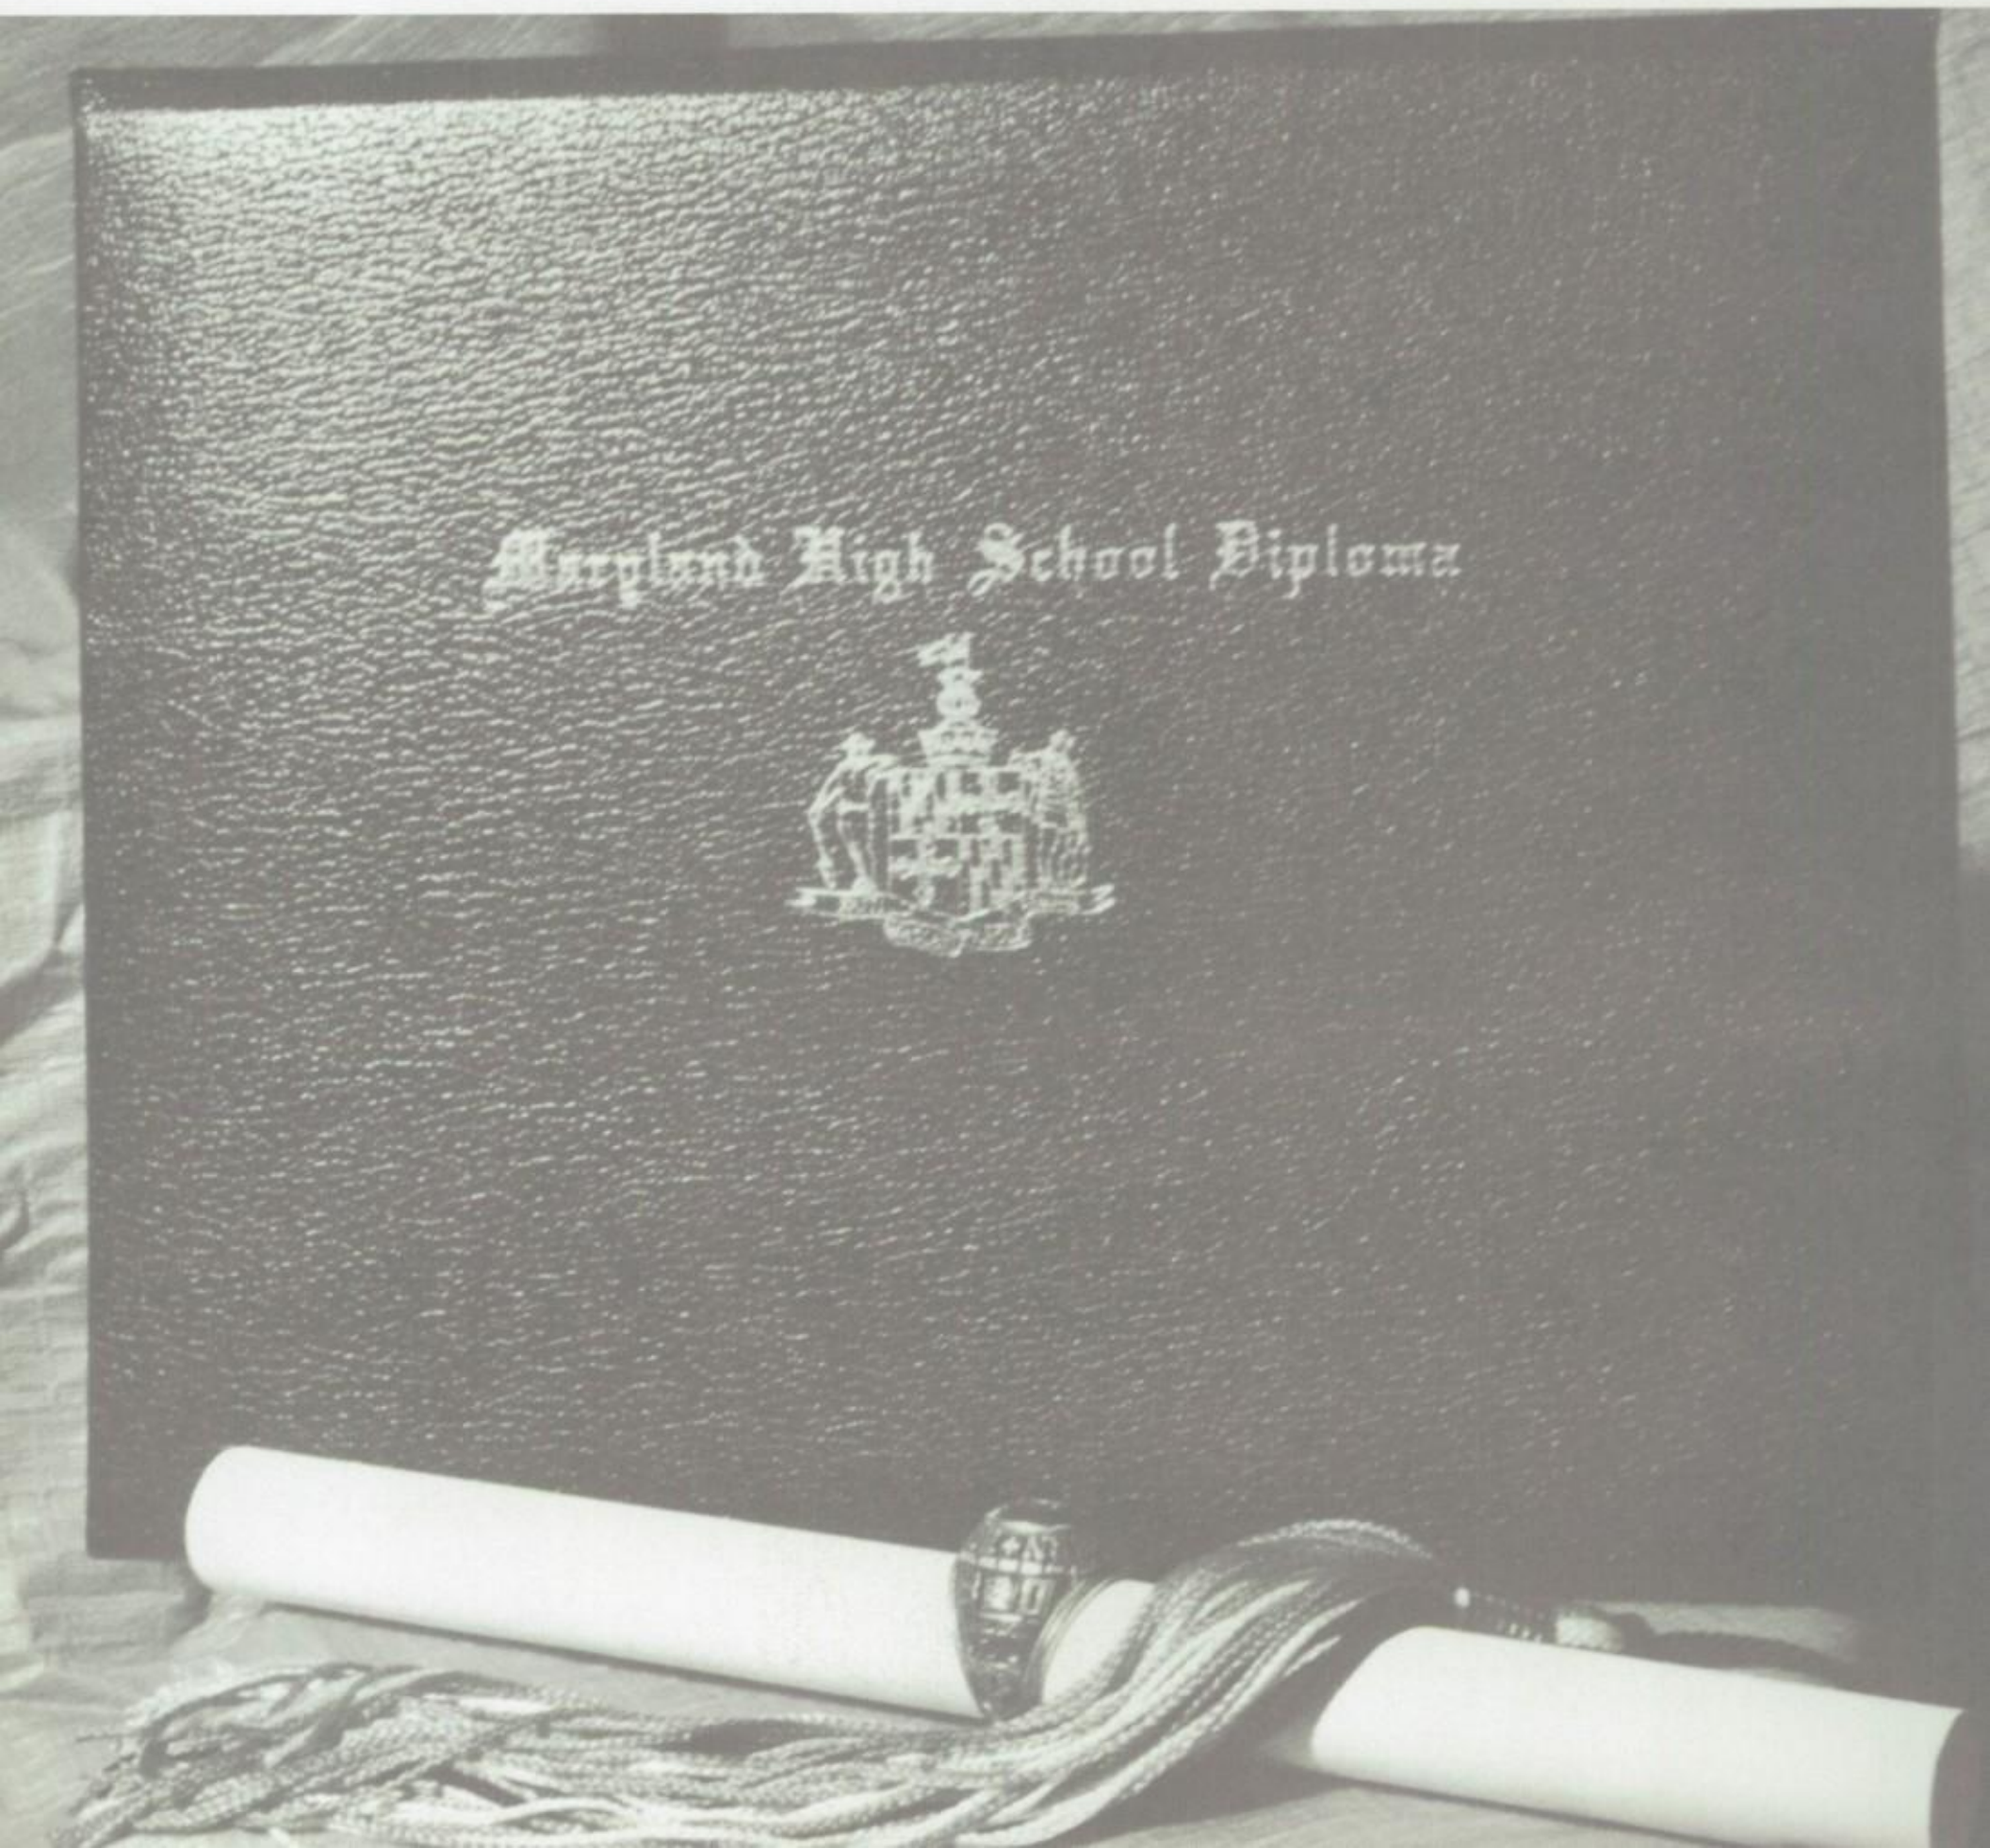
FAREWELL

For a sophomore a high school can be a frightening, lonely place. And so it was in September of 1977 when 290 members of the class of 1980 meekly entered Eastern. But in a short time we were involved with leadership provided by president Dave Glotfelty and sponsors Todd and Sheehe. We whirled through a successful pin dance and an exciting sports night.

The next year went quickly too as we returned to tease the new "Slops," work hard again under Dave's leadership, and receive our rings at the "Midnight Oasis," our ring dance.

This past year has gone even more quickly as we saw a new class president in Robbin Ruppert, the spirits of Tim Bach and Bill Hucke who actually succeeded in having the first Senior Follies, and the prom with Brandy, Beef, laughter, and the final meeting of our Family in a social setting.

The 265 members of the class stand together for the last time on June 7, 1980. We will be sad that so many memories are fading, but we brighten when we realize that this is not an ending, but rather a beginning.



THANKS . . .

The 1980 **Salvajé** staff wishes to express our thanks for the many kind things that people have done to help us produce a book that you can use to remember yesterday. Although the list is too numerous to mention everyone, there are two who stand out in my mind.

First, we send a special thanks to Mrs. DiPietro and the senior Business Occupations students. In September we found ourselves stuck without any business students; consequently, we didn't have any typists. These people took time many afternoons to type portions of the 1980 **Salvajé.**

We'd like to send our second special thanks to John Beach, our representative from Jostens Yearbook Company, for he unselfishly helped us through many rough spots and was always willing to come in and discuss new ideas. He helped us get started when we had 170 blank pages and 21 blank minds.

To the members of the staff this book is special; it is not just another yearbook. Inside you will find a piece of each one of us. Whether the piece is large or small, it represents our opinion of ourselves and our family here at Eastern. We are most thankful for the chance to give you this part of ourselves because for us it is an experience that will be cherished always.
